Comments from Germany on the Revised CTF Investment Plan for Ukraine

Dear Andreas,

thank you very much for the response and the work that went into it.

We are still concerned about the sustainability and replicability of the investment, given the unclear legal situation re local content rules and land use. Nonetheless, we are grateful that MDB's were able to include our most serious concern in the risks table. **And therefore can confirm that we approve of the proposal. Could you pls. forward your response officially to the CIF admin unit, so they can register this exchange for the web site.**

Thank you very much,

warm regards
Annette
