BloombergNEF CLEAN ENERGY MINISTERIAL (CEM-IF)
Climate Policy Initiative GREEN CLIMATE FUND **IEA**
INDIA ENERGY STORAGE ALLIANCE **International Solar**
Alliance IRENA **NAMA Facility** OECD **The Energy and**
Resources Institute WRI-CONCITO

Given its long experience and unique business model, the Climate Investment Funds (CIF) recently launched a *Technical Assistance Facility for Clean Energy Investment* (CIF-TAF) with the aim to support countries in pursuit of their energy transition goals by: i) strengthening policy & regulatory framework; ii) building capacity of key stakeholders; and, iii) enabling transactions through design of tools like new business models, instruments, among others.

CIF-TAF will take a country-focused approach to creating and enhancing investment-enabling frameworks for *renewable energy* and *energy efficiency* investments. It aims to address key risks, bring down the cost of capital and, in the process, lead to the development of and investments in clean energy markets.

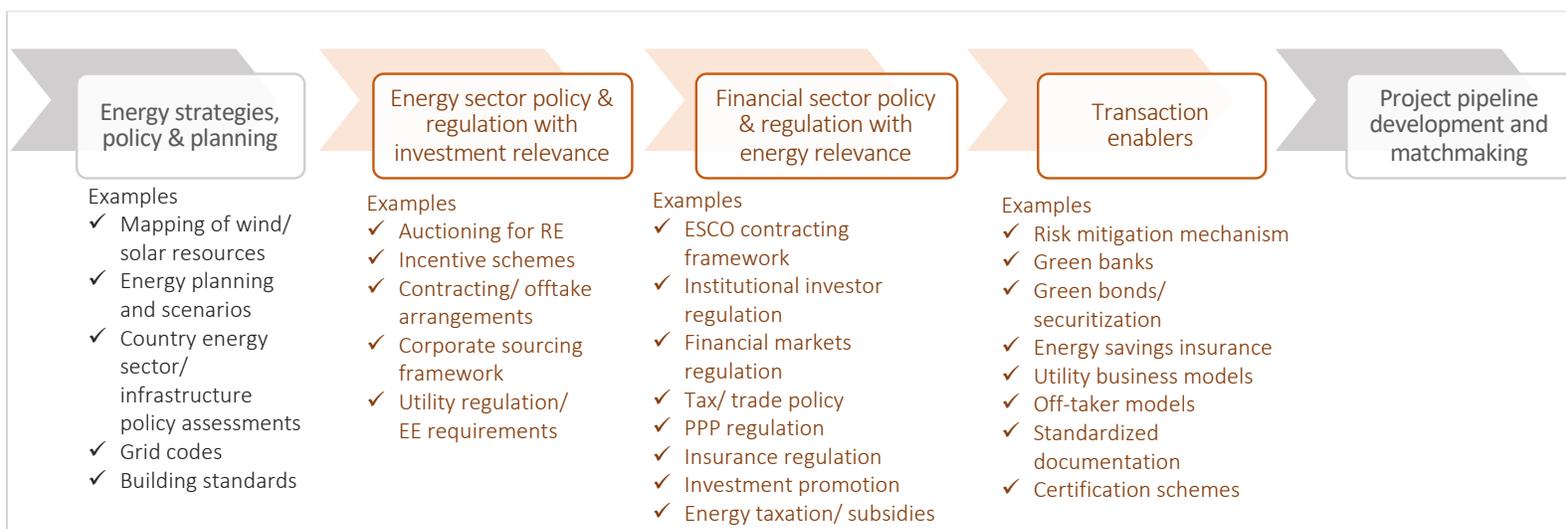

Share knowledge and experiences
Share lessons learnt from past experiences in a range of sub-sectors (e.g. EE in buildings, etc.) and issues (regulations etc.) globally.

Promote private sector engagement
Share experiences related to private sector engagement as part of ongoing dialogs with governments and other key stakeholders.

Identify opportunities to collaborate
Identify opportunities for collaboration with governments, public and private sector entities.

Enhance alignment and coherence
Identify ways to enhance alignment and coherence of international support on the ground for clean energy investment mobilization.

TA Facility Focus Areas

The facility intends to build a strong network of key partners to increase mitigation ambition thorough NDCs and other actions as follows:

- Identify key priority areas and trends*
Identify trends in clean energy investment and ways to accelerate energy transition.
- Share relevant policy and regulatory gaps that hinder scaling up of key technologies.

Implementing partners

European Bank
for Reconstruction and Development

WORLD BANK GROUP
THE WORLD BANK
IBRD • IDA
IFC International Finance Corporation

Registration	9:00 am
Welcome Camilla Otto , Director, Donor Co-financing, EBRD	9:05 am
Opening remarks Mafalda Duarte , Head, CIF Hanne Jersild , Chief Adviser, Minister of Energy, Utilities & Climate, Denmark	9:15 am
Setting the context Role of enabling environment in accelerating clean energy investment <i>India:</i> Ajay Mathur , Director General, TERI <i>Mexico:</i> Marcelino Madrigal , Principle Energy Specialist, IDB	9:30 am
State of clean energy play Luiza Demôro , Lead, Climatescope- BloombergNEF	10:00 am
Notes from the ground <i>Strengthen policies:</i> Clean Energy push in Kazakhstan Aida Sidtikova , Director, Sustainable Infrastructure Group <i>Build capacity:</i> Rooftop solar in India State Bank of India <i>Transaction enablers:</i> Solar Risk Mitigation Instrument Chandra Govindarajalu , Lead Energy Specialist, World Bank	10:20 am
Coffee	11:00 am
Partner insights Introductions, incl. key trends, priorities and lessons learnt	11:15 am
Lunch	12:45 pm
Multilateral corner Key regional and sectoral priorities Gareth Phillips , Chief Climate Change/ Green Officer, AfDB Gloria Visconti , Lead Climate Change Specialist, IDB Chandra Govindarajalu , Lead Energy Specialist, World Bank	1:45 pm
Private sector Innovative ideas for facilitating private sector engagement Jan-Willem van de Ven , Associate Director, Climate Finance, EBRD Peter Mockel , Principal Industry Specialist, IFC Andrey Shlyakhtenko , Operations Officer, IFC	2:30 pm
Working session <i>Facilitator:</i> Jonathan Walters , Senior Adviser, Castalia	3:15 pm
Next steps/ closing	4:45 pm
Reception	5:00 pm

ORGANIZATION	NAME	TITLE
BloombergNEF	Luiza Demôro	Lead, Climatescope
Clean Energy Ministerial <i>Investment & Finance Initiative (CEM-IF)</i>	Rui Luo Rachel Briggs	Deputy Head of Secretariat Senior Adviser
Climate Policy Initiative	Angela Falconer	Associate Director
