**[APPROVE BY MAIL]: MOROCCO: ONE WIND ENERGY PLAN (CTF) (AFDB) (XCTFMA057A)-
COMMENTS RECEIVED FROM THE UNITED KINGDOM**

Dear Mafalda,

Thank you to CIF AU and AfDB for providing additional information and facilitating calls on this project.

We are content to approve the re-allocation of funds requested by the Government of Morocco and AfDB. Overall, we are satisfied that CTF finance is needed to ensure wind continue to be considered and taken forward as a key renewable energy source in Morocco. However, we request the AfDB to consider what additional support they can provide to the Government of Morocco to ensure viability and sustainability of wind in Morocco in the future.

Regards,

Abu.
