**Response from IBRD--Approval by mail: CTF India: Partial Risk Sharing Facility  
for Energy Efficiency (PRSF)**

Dear Kate,

Thanks for the approval.

Let me clarify the below points:

On the first point regarding gender disaggregated jobs, we mentioned in the matrix of comments as well as on phone, that we will not be able to collect it on an annual basis as part of the results framework but we will include this in the operational manual for the project for reporting on these in annual business and implementation plan, in terms of how many women-owned ESCOs or end user borrowers were supported, how many women staff of ESCOs and PFI and other stakeholders received capacity building and TA Support, etc. The numbers will be collected as they become available and will be included in the Implementation Completion Report of the project. I trust this is fine.

On the second point, can you please clarify if by "entire" you mean the ESCO implemented projects supported by PFIs, outside of those ESCO implemented projects supported by PRSF or you mean the total value of the loans and not just the share covered by PRSF?

Thanks and regards,  
Gevorg
