Approval by mail: Vietnam: Ha Noi Sustainable Urban Transport Program (CTF) (ADB)

Dear colleagues from the CIF Administrative Unit,

Germany approves the proposal "Ha Noi Sustainable Urban Transport Program" Submitted by the Government of Viet Nam and the Asian Development Bank (ADB).

To reduce congestion and GHG emissions in an urban context like Ha Noi we don't see any serious alternative but with the development of public transport systems. Though the cost-effectiveness figure is relatively high it is in concurrence to the Investment Criteria and one has to bear very significant co-benefits, like reduction of Black Carbon and other pollutants, in mind.

Regards

Romeo
