**Comments from United Kingdom on Approval by mail: Morocco:  
One Wind Energy Plan**

Dear Patricia,

The UK is pleased to inform you that it is happy to support this innovative and important project. We would also like you to convey our compliments to the team that developed the project for a very well conceived project. It will significantly scale up the deployment of renewable energy in Morocco, it is innovative in its use of wind/hydro hybrid technologies, it addresses access to energy and rural poverty, it will create a significant number of jobs and has a very clear results framework with baselines, indicators and targets.

Kind regards,

Simon
