Comments from the United Kingdom on the approval by mail of CTF funding for IDB and IFC's Colombia Sustainable Energy Finance Program

Dear Patricia,

The UK is very pleased to give its support to the Colombia Sustainable Energy Finance Program. We would like to see the IFC expand its developmental indicators and targets in line with the CTF results framework to fully reflect the developmental impacts.

We would like to compliment the project team on the way they have adapted a tried and tested method of opening new markets and leveraging private sector finance to Colombian conditions.

Kind regards,

Simon
